

Creating the Rainbow

Seven Streams of Light - *Key of Light* suits, the Seven Rays, seven chakras and the seven spheres within the Seed of Life. These form the foundation for the seven primary suits found within the three packs of contemplation cards.

Creating the Rainbow

The Seven Rays and their Cosmic Distributors

The Seven Rays are then distributed through the twelve signs of the zodiac, through planetary chakras, and finally through the seven chakras within the human being. The seven kingdoms of nature each have their own ray, as do countries, cities etc. Each human being is also governed by 5 primary rays – Soul, Personality, Mental, Emotional and Physical – four of which change with each incarnation; the Soul ray continues from life to life.

THE SEVEN RAYS ARE DIVIDED INTO TWO ENERGY STREAMS

Select your cards and notice which suits they fall into. These may then be used as indicators to determine whether to work with your heart or mind. However, as shown in the lower table, all seven rays are expressions of love in one form or another; this being the motivating force in our universe.
